A New iD For Euron

Ontex Healthcare is delighted to announce the launch of our new brand – iD

We are dedicated to bringing all our customers the best, most innovative products in the market and the launch of the iD range once again demonstrates this. The new range builds on the strengths of the existing Euron brand and features a comprehensive range of products which are suitable for all types of incontinence.

Why is Euron changing to iD and how will affect you; our customer?

Our priorities are the continuous improvement and development of products and our aim is to provide all our customers and end-users with the best, most innovative products in the market. Therefore the new iD brand was created with two key objectives in mind:

- We wanted to offer healthcare professionals products which make patient/service user management both easier and more efficient.
- We wanted to provide end users with the best possible products, maximizing comfort, security and discretion.

The iD Expert Product Range

Euron Micro becomes iD Expert Light
iD Expert Light are products designed for the light urinary losses caused by bladder weakness.

Euron Micro Men becomes iD for Men
The iD for Men range is ideal for managing light urinary incontinence in men.

Euron Flex becomes iD Expert Form
iD Expert Form are anatomically shaped products offering an ideal solution for managing moderate to heavy levels of incontinence.

Euron Net Pants become iD Expert Fix
When using the iD Expert Form range of products it is important to wear correct fixation pants.

Euron Form becomes iD Expert Slip
iD Expert Slip are All-In-One products offering an effective solution for moderate to heavy incontinence.

Euron Wings becomes iD Expert Belt
iD Expert Belt are belted products designed for managing moderate to heavy incontinence.

Euron Mobi becomes iD Pants
iD Pants offer an ideal solution for all levels of urinary incontinence.

Euron Soft becomes iD Expert Protect
Our bed and seat pads are designed to provide a high level of protection and softness.

iD pants

iD Pants

iD Pants offer an ideal solution for managing light to moderate to heavy urinary incontinence. Pants can be worn and taken off like any regular underwear.

These products combine comfort and discretion due to their elasticated waist and CottonFeel backsheet.

Features & Benefits

- iD Pants are pull-up pants designed to allow users to maintain their independence.
- Easy to use, iD Pants can be worn and taken off like any regular underwear.
- For light incontinence and a thinner more discreet product iD Pants Active are available in Medium and Large sizes.

Absorbency

- Normal for Light to Moderate incontinence.
- Plus for Moderate incontinence.
- Super for Heavy Incontinence.

iD Expert Light

iD Expert Light is designed for the small urinary losses caused by bladder weakness. Shaped like feminine towels, this range of products provides maximum discretion and security due to its anatomical fit.

Features & Benefits

The iD Expert Light Range is aimed at women suffering with light and light to moderate incontinence and who expect to use a higher absorbent product than a liner.

This extra absorbent range of towels brings comfort and discretion, as well as offering an adhesive zone to keep the product secured properly in standard underwear.

- Normal and Extra for light urinary incontinence
- Maxi for Light to Moderate urinary incontinence

		Packet Price	Case Price
5160030280	iD Expert Light Normal Adhesive strip – Yes Adhesive strip colour – Pink	**£5.24** (£4.37) 28 Pieces per pack	**£54.72** (£45.60) 12 Packs per case

iD for Men

The iD for Men range is ideal for managing light urinary incontinence in men. The male-specific design enhances comfort and security and the shape and adhesive strip ensure a secure fit in conventional underwear.

Features & Benefits

iD for Men are individually wrapped pads ideal for managing light to moderate urinary incontinence.

The anatomically shaped product ensures a secure fit and the adhesive strip secures the pad inside the user's own underwear.

	Packet Price	Case Price
5221040200 iD for Men Level 2 Adhesive strip – Yes Adhesive strip colour – Grey	**£8.79** (£7.33) 20 Pieces per pack	**£61.44** (£51.20) 8 Packs per case

iD Expert Belt

iD Expert Belt are belted briefs designed for moderate to heavy incontinence in active and independent people. They are also recommended for people with limited mobility or those who require assistance.

Features & Benefits

The waist belt is made from a non-woven material with a velcro fastening, which secures around the waist.
The anatomically shaped pad is fixed to the waistband and its CottonFeel backsheet ensures comfort and discretion.

- Plus for Moderate incontinence
- Super for Moderate to Heavy incontinence
- Maxi for Heavy incontinence

iD Expert Form

iD Expert Form are anatomically shaped pads offering an ideal solution for managing moderate to heavy incontinence in mobile or semi-mobile patients. These products provide high levels of absorption, making the user feel dry and comfortable. For use with iD Expert Fix net pants.

Features & Benefits

The products feature wetness indicator lines to guide the carer or individual to when they need to be changed and also feature a CottonFeel backsheet. They are designed as a two-piece system and are required to be used with iD Expert Fix net pants or conventional close fitting underwear.

- Plus and Extra for Moderate incontinence

iD Expert Fix

Where a patient is using the iD Expert Form range of products it is important to wear the correct fixation pants. iD Expert Fix net pants have been designed for use with the iD range and are washable.

Features & Benefits

iD Expert Fix net pants assure the pad is held closely to the body, ensuring optimum performance.

By incorporating soft fibres and double elastic lycra with thigh seams, the product's structure guarantees optimal anti-leakage security, allowing more freedom of movement while also minimising the risk of skin irritation.

iD Expert Slip

iD Expert Slip are All-in-One products which offer an effective solution for managing moderate to heavy incontinence. With a high level of absorption, the All-in-Ones provide the user with anti-leakage security and optimal comfort. They are particularly recommended for people with limited mobility or who are confined to bed.

Features & Benefits

The All-in-One product features four re-sealable tabs and wetness indicator lines which guide the carer as to when the product needs to be changed.

iD Expert Slip is available in a range of sizes and absorbencies and features waist elastication for a snug fit.

Care

Care - Skin Care and Cleansing

Care is a range of products designed to complement the iD selection of incontinence pads.

- Euron Wet Wipes are pre-moistened soft wipes for skin cleansing. They come in a flat packet with a plastic flip top lid which seals easily to help prevent drying out of the wipes.
- No Rinse Body Cleansing Foam is an alternative to soap and water. It gently cleanses all parts of the body, leaving a pleasant fragrance on the skin. Contains Calendula floral extracts, known for their soothing properties.
- No-Rinse Body Cleansing Milk helps prevent dry skin using a 3 in 1 action. It cleanses, nourishes and moisturises the skin. It is alcohol and soap-free, contains agents which help boost skin hydration and there is no need for water to rinse it off.
- Moisturising Cleansing Milk gently cleanses the skin, leaving it soft, moisturised and delicately fragranced.
- Cleansing Hair & Body Gel is an emollient which gently cleanses the skin, leaving skin and hair soft and delicately fragranced.
- Zinc Oxide Ointment is enriched with glycerine and panthenol, to prevent and calm irritations and contains zinc oxide to form a protective barrier.

Oasis® Shampoo Cap

Wash the hair in one simple step without bowls, shampoo, conditioner and water with the unique Oasis® Shampoo Cap. Simply place the shampoo cap on the head, covering all the hair and massage gently before removing. The conditioning shampoo is released into the hair and absorbed back into the cap leaving the hair towel dry. Ideal for people who have difficulty getting in or out of the bath or bending causing neck pain.

Oasis Shampoo Cap

Oasis Shampoo Cap Antibacterial
RSC906 1 Cap **£3.00**

Oasis® Moist Wipes

Ideal for convenient cleansing of the hands and face after a meal and cleaning the hands after using the toilet. Oasis® Moist Wipes are strong, soft and are ideal for people with sensitive skin. An essential moist wipe to have around the home or to take with you when travelling.

Oasis Moist Pack
RSC774 33 x 22cm 50 wipes **£1.50**

Oasis Moist Bucket
WI030 35 x 20cm 150 wipes **£6.00**

Oasis® Bed Bath Wipes

Oasis® Bed Bath wipes are an alternative to a soap and water bed bath. The wipes offer a practical solution to those with limited mobility who are unable to easily take a bath or shower. The moist cleansing wipes are pre-impregnated with a combination of skin cleansers, designed to gently remove sweat, dirt, urine and faeces. The wipes are also ideal when you have limited access to cleaning facilities when travelling.

Oasis Bed Bath Unscented
RSC913 8 Wipes **£0.95**

Oasis Bed Bath Scented
RSC912 8 Wipes **£0.95**

Oasis® Cinco™

Oasis® Cinco™ has been specifically designed for people who are incontinent or bed-ridden and are therefore vulnerable to skin breakdown and Incontinence Associated Dermatitis (IAD). Oasis® Cinco™ is a moist, soft cleansing wipe with 5-in-1 action; cleansing, moisturising, deodorising, anti-microbial and barrier protection. Ideal for use in the home or keep handy when out and about.

Oasis Cinco
RSC555 33 x 22cm 25 wipes **£3.25**

Flushmee™ Wipes

Flushmee™ moist and dry wipes are specifically designed for continence care needs. Gentle and kind to the skin, Oasis® Flushmee™ moist wipes cleanse, moisturise and deodorise in one easy step. Ultracloth® Flushmee™ dry wipes are designed to replace dry tissue as part of your daily routine. Oasis® and Ultracloth® Flushmee™ can be flushed down the toilet.

Oasis Flushmee
RSC767 50 Wipes **£2.25**

Ultracloth Flushmee
RSC567 50 Wipes **£3.30**

Clinisan® Emollient Skin Cleansing Foam

Ideal for urinary or faecal incontinence, Clinisan® Skin Cleansing Foam has anti-bacterial properties and has been developed to gently lift soiling, whilst cleansing, restoring and moisturising the skin after an incontinent episode.

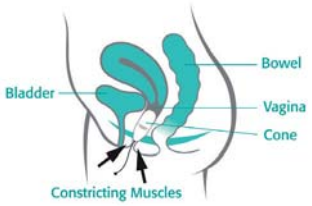
GN66 Pack of 100s **£6.95**

Aquaflex®

Weighted Vaginal Cones



What is Aquaflex®?

Aquaflex is a clinically proven Pelvic Floor Muscle Exercise System consisting of two cones and a set of weights. It has been designed to help improve your pelvic floor muscle tone.

If you accidentally leak urine when you laugh, cough, sneeze or exercise, you may be suffering from stress incontinence and this could be caused by weak pelvic floor muscles. If you exercise and strengthen your pelvic floor you can regain control!

It's easy!

By using this simple and easy to use device for just twelve weeks, the inconvenience of those embarrassing leaks could disappear forever!

013089 **£25.95**

How does Aquaflex® work?

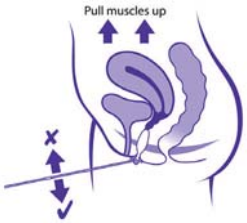
It is important to exercise your pelvic floor muscles correctly. The Aquaflex Cone is inserted the same way as a tampon and causes the pelvic floor muscles to automatically contract around it. It is this reflex that tones
the muscles.

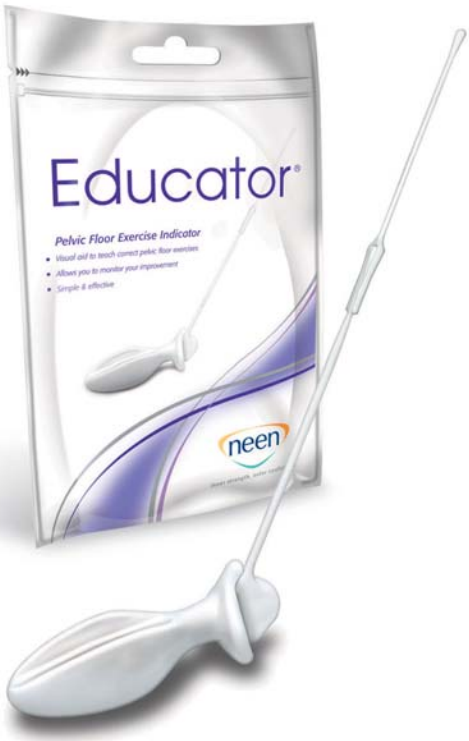
As your pelvic floor becomes stronger you will be able to add more weights and increase the time you are able to keep the cone in place, for up to 20 minutes a day.

CLINICALLY PROVEN TO REDUCE STRESS INCONTINENCE

Educator®

Pelvic Floor Exercise Indicator





What is the Educator®?

The Educator is a simple lightweight and easy to use pelvic floor exerciser that will help you understand and strengthen your pelvic floor.

Correct Exercise

One of the main problems women experience when first attempting pelvic floor exercises is knowing whether they are doing them correctly. Many women think they are doing these exercises correctly when in fact they may not be. For pelvic floor exercises to help reduce the symptoms of urinary incontinence it is vital
these exercises are performed correctly.

017510 **£13.75**

How does the Educator® work?

The Educator's unique design follows the movement of the internal wall of the vagina, allowing you to see how your pelvic floor muscles are being contracted. If you contract your pelvic floor muscles and the indicator moves downward, you can be sure you're performing the exercises correctly.
It's as simple as that!

Even if you can already do pelvic floor exercises, the Educator can assess your technique and monitor your improvement!

IMPORTANT
Do not use Aquaflex or Educator if you are pregnant, during your period, if you have a prolapse or vaginal infection.

Periform®+

Intra-Vaginal Probe

What is Periform®+?

Developed from the award winning Periform®, the Periform®+ is the improved intra-vaginal electrode designed for comfortable and effective use with a muscle stimulator, i.e. **Pericalm™** or with a biofeedback device, i.e. **Peritone**. Periform®+ is used in the treatment of stress, urge and mixed urinary incontinence and is used by continence specialists worldwide.

Features & Benefits

- The smooth shape allows Periform®+ to be inserted comfortably and easily
- The patented hollow allows it to stay in place when you stand up or move around during use
- The unique indicator wand allows you and your medical advisor to see how your pelvic floor muscles are being contracted
- The Periform®+ is easy to clean after use

How does Periform®+ work?

When attached to a muscle stimulator such as **Pericalm™**, the Periform®+ delivers a safe and gentle electrical current to tone the pelvic floor muscles, making them stronger.

When attached to a biofeedback unit such as **Peritone**, the Periform®+ picks up electrical activity in the pelvic floor muscles and displays the information on the unit's screen to show you that you are contracting your muscles correctly.

021972 **£16.90**

Pericalm™

Pelvic Floor Stimulation Unit

CLINICALLY PROVEN TO REDUCE STRESS INCONTINENCE

What is Pericalm™?

The Pericalm™ is a pelvic floor stimulation unit, ideal for those who have weak pelvic floor muscles. It provides an alternative method of strengthening the muscles to the traditional 'squeeze and lift' exercises, which some women may find difficult when first starting.
Bladder sensitivity can also be reduced by using the Pericalm™.

The Pericalm™ has 6 pre-set programmes specifically designed to help with a range of pelvic floor problems including stress incontinence, urge incontinence (overactive bladder), mixed incontinence, pelvic pain relief and for a general pelvic floor workout.

How does Pericalm™ work?

Used with the Periform®+ or Anuform® electrodes, Pericalm™ delivers electrical stimulation which automatically contracts your pelvic floor muscles. All you need to do is select your preferred programme and gradually increase the intensity.

If you are using the unit under the guidance of a Continence Specialist, Pericalm™ will allow you to continue your treatment at home in between your appointments!

Unit Supplied with:

- 2 cables
- Battery
- User manual
- Soft carry case
- 2 year warranty

012531 **£79.95**

Periform or Anuform probes need to be purchased separately
